

# Endotracheal Tube Ejection Bar

## EJT-1

- Straightforward and safe exchange of endotracheal tube (ETT) from laryngeal mask for airway management during procedure.
- Hold the ETT in place while retrieving Disposable Video Laryngeal Mask from patient's airway
- EJT-1's arrow-shape tube holder fixate the ETT while its shaft can be curved to conform airway tube's shape of laryngeal mask to ensure smooth exchange.

### Used with Video Laryngeal Mask System
